WORK EXPERIENCE

Loanworks Technologies - Frontend Developer

November 2021 – Current

Front-end Developer for Loanworks Technologies. Working with Angular 10+ Web Based Projects.

Business for Sustainability Development (BSD) - Software Developer

July 2018 – Oct 2021

One of the developers of their data-gathering tool. Also acted as team leader for my workmates. Manage the server for the web application using AWS. Develop mobile and Web applications using web technologies. Also fixed some company equipment's like laptops, hard drives, etc.

Bridge360 IT Solutions (Bridge360) - Frontend Developer

Apr 2020 – Sep 2020

Frontend Developer for Project Moses. Handled most of the client-side logic for Project Moses, using the UI/UX design templates provided by the designated designer. Added developed REST APIs for this Project and integrated third-party APIs like Here Maps.

AOMOS Information Technology Services - Associate Technology Engineer

Apr 2017 – June 2018

The Main Developer for the Applicant Tracking and Resume Bank Softwares. While advertising and acting as customer support for the software. Did both the front-end and backend for the projects. Also fixed some company equipment's like laptops, hard drives, etc.

Career Hunter Recruitment Solutions (CHRS) - Programmer Trainee

Sep 2016 – March 2017

Worked closely with helping to develop the backend and front-end of the software used by the company for their recruitment team. I did some technical support.
